

NEW THIS YEAR! CSD ADOPTS PARENTSQUARE DISTRICTWIDE

A digital communication platform.

ABOUT THE PLATFORM

Allows for two-way communication between the school and parents. The platform will serve as the app that is approved for use in CSD schools so that parents do not have to go to various places and apps to get information about their child's school or class.

PARENTSQUARE FEEDBACK

ParentSquare was piloted in a limited number of CSD schools last year. Positive feedback from both employees and the community, especially from multi-lingual families who benefit from the service's instantaneous translations, prompted a districtwide implementation of the app.

Preferred Language

Two-way texting with translation between staff and families.

Direct Message

Direct message teachers and staff through a secure and private interface.

Communication Times

Choose to receive information as it comes, or all at once in the evening.

Scan the QR code to see more information at the ParentSquare website.

Scan to download the app today to stay connected.
